Dear Senator Gillibrand,

I am writing to urge you to fight the proposed deal between Verizon's subsidiary Verizon Wireless and the cable companies. The FCC and DOJ should not approve this deal, which destroys good union jobs and is also bad for customers.

This proposed deal ends a historic competition between Verizon and the cable companies, including Comcast and Time Warner. Verizon, through its subsidiary Verizon Wireless, will form a giant unregulated quasi-monopoly with the cable companies.

This deal will be very profitable for Verizon Wireless and cable, ending any incentive to invest in FiOS and compete against cable. There will be fewer jobs building, maintaining, servicing and installing the FiOS network.

Buffalo, Syracuse, Albany, other Upstate cities and rural areas, as well as Eastern Long Island, will all get left behind with no cable competition, costing CH and IBEW jobs. Even regions with FiOS could be affected since there will be far less incentive to invest in the network.

I urge you to reject this proposed deal because it will destroy jobs, as well as hurt consumers. Thank you for your consideration.

Sincerely,
ingrid Smith-Grant

Dear Senator Schumer,

I am writing to urge you to fight the proposed deal between Verizon's subsidiary Verizon Wireless and the Cable companies. The FCC and DOJ should not approve this deal, which destroy good union jobs, and it is also bad for customers.

This proposed deal ends a historic competition between Verizon and the cable companies, including Comcast and Time Warner. Verizon, through its subsidiary Verizon Wireless, will form a giant, deregulated quasi-monopoly with the cable companies.

This deal will be very profitable for Verizon Wireless and Suddenlink, ending any incentive to invest in fiber and compete against cable. There will be fewer jobs building maintaining, repairing and maintaining the fiber network.

Buffalo, Syracuse, Albany, other Upstate cities and rural areas, as well as

Eastern Long Island will all get left behind with no cable competition, costing CWA and IBEW jobs. Even regions with TiOS could be affected, since there will be less incentive to invest in the network.

I urge you to reject this proposed deal because it will destroy jobs as well as hurt consumers.

Thank you for your consideration.

Sincerely,
Joey Lynn
